INTRODUCING CLAREMONT.EDU

The Claremont Colleges (TCC) is excited to announce the launch of its newly redesigned website: Claremont.edu. The streamlined, modern design offers easy navigation, a user-friendly interface, and engaging content to help website visitors obtain information about our institutions, consortial experience, news, and events. Throughout the pandemic, we experienced increased website traffic, with visitors looking to learn more about TCC and our institutions. The new Claremont.edu provides visitors with an insight into the TCC experience with links to our seven institutions to learn about the unique culture and academic experience, including campus life, student services, special events, and current news. With our new website, we invite the community to browse the events section for opportunities to attend performances, programs, and talks. Going forward, we will use our website as a means to share event details with the community and will be using this paper version for a limited time only. Claremont.edu is your destination for everything about The Claremont Colleges: get information, get connected, and get together.

KGI CELEBRATES 25 YEARS
Reflecting on its tradition of developing leaders in healthcare and the applied life sciences, Keck Graduate Institute (KGI) is proud to announce a year-long celebration of its 25th anniversary, from January through December of 2022. KGI’s story began in 1995 when the late Henry E. Riggs, president of Harvey Mudd College since 1988, gathered a team to contemplate a “new venture.” He envisioned a stellar new institution in The Claremont Colleges that would be innovative in higher education, productive for our nation and the region’s economy, and beneficial to our society in solving critical problems related to the emerging field of biotechnology. In July 1997, the W.M. Keck Foundation provided a $50 million founding gift that transformed KGI from a dream into a reality.
