

THE CLAREMONT COLLEGES

A HIGHLY DISTINCTIVE MODEL OF COLLABORATION IN HIGHER EDUCATION

FOUNDED 1955

Harvey Mudd College (HMC) is one of the premier engineering, science and mathematics colleges in the United States. HMC educates engineers, scientists and mathematicians who become leaders in their fields and have a clear understanding of the impact their work has on society. For more than 50 years, HMC has led the way with interactive undergraduate research opportunities on par with graduate institutions. HMC has a strong focus on the humanities and social sciences, an exceptional faculty who challenge students to achieve beyond their expectations and one of the nation's highest rates of graduates who go on to earn PhDs. HMC's graduates are highly trained scientists, technologists, educators, entrepreneurs and other professionals who are committed to excellence, integrity, equity and inclusion.
